

# Summer 2011

## Box Tops Bubbles Contest

May 18, 2011

Parents and Students,

Did you know that Channahon School District 17 is **Number 24** out of 5,974 Illinois schools for Box Top Fundraising????? **You all should be very proud!** Your participation earned our school \$4,883 for the 2010-2011 School Year. That's an increase of over \$500 from last year! I've set our goal at \$5,000 for the 2011-2012 School year. We can do it!!!! **This is one of the fundraisers that is no-cost, little effort and everyone can get involved.**

Just because school is out, doesn't mean you have to stop saving Box Tops! Continue saving over the Summer. To keep you motivated, I've attached a Special Summer Collection sheet. (Don't forget to make some extra copies. A Summer 2011 Collection sheet will also be in the CSD Website.) Tape or glue your box tops as usual and return to school in August. **THE TOP FIVE FAMILIES WILL EACH RECEIVE A GIFT FROM A LOCAL BUSINESS!**

Parents, did you know there are other ways to earn BOX TOP money???

1. Visit the Box Tops Marketplace at [www.boxtops4education.com](http://www.boxtops4education.com). Simply log-on, complete the free registration, choose Channahon School District No. 17, shop and our School District earns a percentage of every purchase. Check out the participating retailers. You'd be surprised with the variety.

2. General Mills/Jewel/Osco & Box Tops have teamed up with a new earnings website. Go to [www.growinglocallearning.com](http://www.growinglocallearning.com). Once again, complete the free registration, choose your store location and CSD #17. You even earn Bonus Box Tops for signing up!

Both of these programs present wonderful, easy ways to broaden our fundraising and meet or exceed our goal.

I will continue to be the Box Top Chair for the 2011-2012 school year. Please call me at any time, even over the summer if you have questions, at 815-521-9033. I cannot wait to see how many Summer Collection sheets are turned in! Let the fun begin!!!

Mary Easton, PTO Box Top Chair
